43 new PHARMED profiles

Full source coverage. Shared cream, gold and botanical artwork.

The expanded portfolio

46 photographed references are accounted for: 43 profiles, two existing PHARMED product families retained, and one NAD+ reference held for an incomplete ingredient declaration.

Each profile carries the full selected ingredient declaration and every published amount, with its exact basis. A documented alternative is explicitly identified. "Not published" means that the source does not disclose the amount; it is not a zero or a suggested dose.

These are formulation and artwork development profiles. Source brand approvals, CE status, origin claims, certifications and clinical results are not transferred to PHARMED. Proposed geometry requires confirmation on the selected stock container.

N49 | EVENING HERBAL DRINK

Valerian & California poppy drink

250 mL | LIQUID

Valerian & California poppy drink. PHARMED development profile based on the published source declaration.

Source route: direct source declaration

Classification: food supplement.

Exact shared label front. The same master controls the website, catalogue and measured factory artwork.

COMPLETE SELECTED INGREDIENT DECLARATION

Water; sweetener(xylitol); acidity regulator(potassium citrate); valerian root extract(Valeriana officinalisL.); California poppy extract(Eschscholzia californicaCham.); colour(caramel); acid(citric acid); preservatives(potassium sorbate,sodium benzoate); thickener(cellulose gum); iodine(potassium iodide).

Declared component	Amount	Exact table basis
Valerian root extract	20 mg	15mL daily portion
California poppy extract	20 mg	15mL daily portion
Iodine	Not published	15mL daily portion

REFERENCE DIRECTIONS

15mL before bedtime.

WARNINGS

Do not exceed the recommended daily amount. Food supplements do not replace a varied, balanced diet and a healthy lifestyle. Keep out of reach of young children.

H01 | JUNIOR MOSS LOLLIPOPS

Iceland moss lollipop format

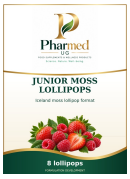

8 lollipops | LOLLIPOP

Strawberry lollipop format with Iceland moss and calcium pantothenate; device development profile.

Source route: direct source declaration

Classification: device development.

Development only. The reference is not a released PHARMED medicine, medical device or cosmetic.

Exact shared label front. The same master controls the website, catalogue and measured factory artwork.

COMPLETE SELECTED INGREDIENT DECLARATION

Iceland moss dry extract (Lichen islandicus); calcium pantothenate; ascorbic acid; sucrose; starch syrup; citric acid; strawberry flavour; colouring food concentrate (apple, blackcurrant, radish).

Declared component	Amount	Exact table basis
Iceland moss dry extract	6.66 mg	1 lollipop
Calcium pantothenate	1.5 mg	1 lollipop

SOURCE DIRECTIONS

SOURCE ONLY:adults and children>=3 years1 lollipop every2-3hours as needed;maximum3/day. Only children who can safely suck a lollipop;no running or jumping while sucking.

WARNINGS

Not for ingredient allergy. Source age3+ and choking/accident precautions. Seek advice if no improvement after2-3days or worsening.

H02 | MARSHMALLOW THROAT LOZENGES

Marshmallow root extract

20 lozenges | LOZENGE

Marshmallow root87.5 mg per lozenge, with botanical flavours; device development profile.

Source route: direct source declaration

Classification: device development.

Development only. The reference is not a released PHARMED medicine, medical device or cosmetic.

Exact shared label front. The same master controls the website, catalogue and measured factory artwork.

COMPLETE SELECTED INGREDIENT DECLARATION

Marshmallow root extract; liquid isomalt; citric acid; grape concentrate; menthol; blackcurrant flavour; eucalyptus oil; geranium flavour; sucralose; water; maltitol syrup; thyme extract; ribwort plantain extract; glycerol; soy lecithin. Further separately declared constituents:propylene glycol and sorbitol.

Declared component	Amount	Exact table basis
Marshmallow root extract	87.5 mg	1 lozenge
Isomaltitol+maltitol combined	2.5 g	1 lozenge
Propylene glycol	2.5 mg	1 lozenge
Sorbitol	20 mg	1 lozenge

SOURCE DIRECTIONS

SOURCE ONLY:adults and children>=6 years up to6 lozenges/day, dissolve slowly. Up to30days;seek advice if not improving after1week.

WARNINGS

Contains soy lecithin; may contain traces of soy and peanut. Not for children under 6 years or ingredient allergy. Sugar intolerance/HFI precautions due to sorbitol, isomalt and maltitol. Polyols may be laxative. Separate from other products by 30-60 minutes as absorption may be delayed. Pregnancy/lactation: consult a clinician.
